

4AXA

ALL-ALUMINUM COIL FAMILY

The new Ameristar® 4AXA coil offers a standard 19 3/8" depth with an all-aluminum composition. The 4AXA coil is designed to perfectly complement existing Ameristar systems with existing heat to add cooling capabilities in a quick and cost-effective way.

- › All-aluminum coil design
- › Upflow position
- › Depth of 19 3/8" can fit into existing ductwork
- › Department of Energy-ready
Line-up for 2023
- › Factory installed R410A TXV
- › Compatible with 1.5 – 5-ton outdoor models
